Table Injury; Influenza (Flu) Vaccine;
Shoulder Injury Related to Vaccine
Administration (SIRVA)

Ronald Craig Homer, Conway, Homer, P.C., Boston, MA, for Petitioner.

Kyle Edward Pozza, U.S. Department of Justice, Washington, DC, for Respondent.

RULING ON ENTITLEMENT¹

On December 30, 2020, Maria Belen Banaag filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). On April 1, 2022, Petitioner filed an amended petition. Petitioner alleges that she suffered a shoulder injury related to vaccine administration (“SIRVA”) resulting from an influenza vaccine received on October 5, 2018. Amended Petition at 1. Petitioner further alleges the vaccine was received in the United States, she suffered the residual effects of her injury for more than six months, and no lawsuits have been filed or settlements or awards accepted by anyone, including Petitioner, due to her vaccine-

related injury. Amended Petition at ¶¶ 26-28. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On May 8, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner had no history of pain, inflammation or dysfunction of the affected shoulder prior to intramuscular vaccine administration that would explain the alleged signs, symptoms, examination findings, and/or diagnostic studies occurring after vaccine injection; she more likely than not suffered the onset of pain within forty-eight hours after vaccine injection; her pain and reduced range of motion were limited to the shoulder in which the intramuscular vaccine was administered; and there is no other condition or abnormality that would explain petitioner's symptoms." *Id.* at 4-5. Respondent further agrees that "the records show that the case was timely filed, that the vaccine was received in the United States, and that petitioner satisfies the statutory severity requirement by suffering the residual effects or complications of her injury for more than six months after vaccine administration." *Id.* at 5. Respondent also notes that Petitioner has averred that no civil actions have been filed and that she has not received or collected an award or settlement for civil damages for her vaccine related injury, and thus agrees that entitlement to compensation is appropriate. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
